DEPRECTED!!!

Hello,

I fixed several TheIDE layouts. Changes:

- LangLayout - file, lang, text & source ArrayCtrls -> AutoHideSb
- AbbreviationsLayout - abbr ArrayCtrl -> AutoHideSb
- PrintLayout is a little bit bigger.
- OutputModeLayout - eliminates artifacts
- OK & Cancel buttons are more symetric in several layouts

I enclosed improved lay file (ide/ide.lay).

Sincerely,

Klugier
