I'm trying to store binary file as json and load from it:

```
FileIn fs(someFile);
```

```
String buf = fs.Get(size);
```

```
ValueArray json = ParseJSON(Json()("buf", buf).ToString());
```

```
ASSERT(json.GetCount() == 1);
```

```
String s = json[0];
```

```
ASSERT(s == buf);//=>break: s contain at end some like 'f', 'r', 'e', 'e'
```
