luzr wrote on Wed, 19 July 2006 11:13Werner wrote on Thu, 13 July 2006 12:34In the meantime I studied the code fragments which bear the various expressions to be translated. I hope I found universally usable translations.

So I provide a dede2.tr file to anybody who might be interested.

But a warning word might be appropriate:

At least as far as "my" dede2.tr file is concerned it can only yield "raw" translations. In any case the translation has to be polished "by hand" if it is to be used in production code.

Werner

Now part of U++ (will be in next dev release).

Mirek

I feel so embarrassed ...

I really hope that it will be useful to somebody.
