Hi all,

I've updated GraphCtrl/GraphDraw packages in svn sandbox.
The following enhancements/corrections were done:

 correction : Mouse move management now uses LocalLoop to catch mouse when scrolling and remove a nasty bug when moving mouse from one graph to another
 Some cleaning up of code
 Added some documentation (work in progress)
 Added FitToData() method (for each axis, and for all graph)
 Added UNDO/REDO capacities
 Added UNDO/REDO automatic merging ==> when actions are done very quickly(<500ms) (like wheel scroll or zoom), they are merged into ONE undo / redo action

Undo/redo works for all the move/scroll actions.
Properties undo/redo is next to come
