Hello all

Please check the end of Bazaar page:
http://www.ultimatepp.org/www$uppweb$bazaar$en-us.html and this page:
http://www.ultimatepp.org/www$uppweb$bazaar_cont_koldo$en-us .html

I have included the first version of a place where U++ and Bazaar developers can show U++ users what are the packages they manage and what are their personal interests about U++, to do lists, future projects, etc.

Of course this is not a Blog or a dating web

You can add your own page there.
