Hi all,

Here comes the last updates concerning the GraphDraw/GraphCtrl. The following modifications have been made:

Code cleaning / refactoring / reorganisation
Undo/redo additions
Undo/Redo refactoring to ease it's use in GraphElements
Added MarkerElement/DynamicMarkerCtrl
refactored TickMark class (needed for MarkerElement)
Series Properties Dialog refactored

The main addition is the management of DynamicMarkers: it allows to manage markers that can be freely moved on the side of the graph (to measure distances ... or anything else). It is still work in progress (how to pass parameters to TickMark classes) but a working example is show in GraphCtrl_test Package

The look and feel of the markers used is completely configurable and depends only on the TickMark class used
