Hi all,

I just uploaded some more updates to GraphDraw/GraphCtrl.
The modifications brought are the following:

DynamicMarker refactoring
Added some skinning possibilities to the Graph and to the TickMarks used for DynamicMarkers
some code cleaning
some documentation

The next modifications to come :
There is an issue when moving a marker with the mouse ==> all the graphs get's drawn ... so if the graph has big data, moving the marker is not smooth : I will try to correct this point.
