Hi all,

I just uploaded some more updates to GraphDraw/GraphCtrl.

The modifications brought are the following:

DynamicMarker refactoring

Added some skinning possibilities to the Graph and to the TickMarks used for DynamicMarkers some code cleaning some documentation

The next modifications to come:

Their is an issue when moving a marker with the mouse ==> all the graphs get's drawn ... so if the grap has big data, moving the marker is not smooth: I will try to correct this point.
