Hi all,

I just uploaded some more updates to GraphDraw/GraphCtrl.
The modifications brought are the following:

 DynamicMarker refactoring
 Added some skinning possibilities to the Graph and to the TickMarks used for DynamicMarkers
 some code cleaning
 some documentation

The next modifications to come :
Their is an issue when moving a marker with the mouse ==> all the graphs get's drawn ... so if the
grap has big data, moving the marker is not smooth : I will try to correct this point.
