Hi,

I used PDF417.mobi on android.

Its not reading your image. It can read other PDF417 images available on net.

Your String is not converted properly by other two softwares.

http://grandzebu.net/informatique/codbar-en/pdf417.htm http://www.bcgen.com/pdf417-barcode-creator.html

your String

Both convert to image which reads as ABCDEF CDEFGHIJKL

Mostly string is not properly encoded by softwares.
