Subject: Re: GridCtrl and ThreeState option Posted by nixnixnix on Mon, 18 Nov 2013 20:29:38 GMT View Forum Message <> Reply to Message

Hi Daniel,

How about a function similar to Option() but Switch()?

This would work like option but it would look like switch and only one could be true at any one time for the whole column.

I normally would just setup and array of options and make them switch images but I am not sure how to handle the Insert function.

Cheers,

Nick
