unodgs wrote on Sat, 22 July 2006 23:54Added:

- TabCtrl rewritten from the scratch (and chameleonized)

Modified:

- Painting engine refactored (see here form more : http://www.arilect.com/upp/forum/index.php?t=msg&th=1194 &start=0&)

Studying the error messages one might think that Upp 607-dev2 had an image problem ...

Werner
