Hello Mirek

Now it is not possible to compile with MinGW due to a simple problem in parse.cpp function CParser::ReadDouble().

Just adding this before the function solves it:

```
#if defined(COMPILER_MINGW)
__CRTIMP unsigned int __cdecl __MINGW_NOTHROW _clearfp (void);
#define SW_OVERFLOW 0x00000004
#endif
```

Added in Redmine here.
