Hello Ralph,

I don't have Win7/MSC10 available for test but the test application GraphCtrl_test has been tested under:

 win visual express 5
 linux (with flag X11)
 linux (no special flag)

Looking at the traces it doesn't looks like a problem tied to GraphCtrl.

Is this obtained by compiling GraphCtrl_test or is it an application you are trying to make ?

If it isn't from GraphCtrl_test, could you please post you're project or a test case
