I get an error when compiling ANY Upp project that has a .rc file included. Using MSC10

Example compiling GoogleTranslator:

```
----- CtrlLib ( GUI MT MSC10 DEBUG DEBUG_FULL BLITZ WIN32 MSC ) (1 / 11)
----- GoogleTranslator ( GUI MT MSC10 DEBUG DEBUG_FULL BLITZ WIN32 MSC ) (2 / 11)
----- CtrlCore ( GUI MT MSC10 DEBUG DEBUG_FULL BLITZ WIN32 MSC ) (3 / 11)
----- Draw ( GUI MT MSC10 DEBUG DEBUG_FULL BLITZ WIN32 MSC ) (4 / 11)
----- plugin/bmp ( GUI MT MSC10 DEBUG DEBUG_FULL BLITZ WIN32 MSC ) (5 / 11)
----- RichText ( GUI MT MSC10 DEBUG DEBUG_FULL BLITZ WIN32 MSC ) (6 / 11)
----- Core ( GUI MT MSC10 DEBUG DEBUG_FULL BLITZ WIN32 MSC ) (7 / 11)
----- plugin/z ( GUI MT MSC10 DEBUG DEBUG_FULL BLITZ WIN32 MSC ) (8 / 11)
----- plugin/png ( GUI MT MSC10 DEBUG DEBUG_FULL BLITZ WIN32 MSC ) (9 / 11)
----- Web ( GUI MT MSC10 DEBUG DEBUG_FULL BLITZ WIN32 MSC ) (10 / 11)
----- GoogleTranslatorDemo ( GUI MT MAIN MSC10 DEBUG DEBUG_FULL WIN32 MSC ) (11 / 11)
GoogleTranslatorDemo.rc
```

There were errors. (0:00.28)

Compilation succeeds once I remove the .rc file.

Any clues?

Tks!
