Subject: Re: "Close();" does not!
Posted by slashupp on Mon, 03 Feb 2014 11:09:16 GMT

Quote:But you can use this workaround:

Quote:PostCallback(THISBACK(Close));

I replaced 'Close();' with above call, but it has no effect.

My opinion: the call to Close() should work from anywhere and
any 'housekeeping' to make that work should not be my concern?
