Wikipedia article structure comparisons:
wxWidgets:
    * 1 Name change from wxWindows to wxWidgets (no need?)
       Origins in NTL?
    * 2 Software that uses wxWidgets
       Ultimate++ - None?
    * 3 See also
       ??? Suggestions?
    * 4 External links
        o 4.1 Language bindings
         Ultimate++ - None?
        o 4.2 IDE and RAD tool
        Ultimate++ has (uses) its own IDE called theIDE (- create and link to a separate Wikipedia
article?)
        o 4.3 Reference documentation
        links to sourceforge:
        1. home page
        2. ???
        forums.
