Thx mirek

filling the dropdownlist works correctly, thanks.

But to set the default selected font:

Quote:the use ApplyFormatInfo to set initial font.
does not work.

This works:

```
RichText::FormatInfo FI=myRE.GetFormatInfo();
//FI.SetDefaultFont(Font(deffont,11)); <--- doesn't! (deffont was set when dropdownlist was filled)
FI.FaceName("Times New Roman");
FI.Height(myRE.PtToDot(11)); //must use PtToDot here
myRE.ApplyFormatInfo(FI);
```
