mirek wrote on Sun, 25 August 2013 10:19Ah, thanks, you are right. Anyway, I feel like FromSystemCharset is a good idea, so I have moved it to Append:

 WString t = Filter(FromSystemCharset(s), sAppf).ToWString();

Please check whether it works for you...

Mirek

For me it doesn't work... Is it possible to disable this feature with "FromSystemCharset"? It works properly only if system language is english.
