Subject: Re: ok and cancel button reversed on Linux
Posted by andreincx on Fri, 28 Mar 2014 08:16:02 GMT

There is KDE and Windows which have [OK] [Cancel] order, and Gnome and MacOS which have [Cancel] [OK]. U++ uses Gnome way of displaying buttons on Linux.

See SwapOKCancel_Write(true) in CtrlLib/ChGtk.cpp and ArrangeOKCancel(Ctrl& ok, Ctrl& cancel) in TopWindow.cpp.
