andreincx wrote on Fri, 28 March 2014 04:16: There is KDE and Windows which have [OK] [Cancel] order, and Gnome and MacOS which have [Cancel] [OK]. U++ uses Gnome way of displaying buttons on Linux.

See `SwapOKCancel_Write(true)` in `CtrlLib/ChGtk.cpp` and `ArrangeOKCancel(Ctrl& ok, Ctrl& cancel)` in `TopWindow.cpp`.

Actually, I did not know KDE displays them in Windows order. I guess we can adjust `SwapOKCancel` for KDE....
