koldo wrote on Sun, 06 April 2014 10:25Hello Mirek

Now it is possible to delete spammers.

However there is a lot of spam. Could you check the new user filtering system?

Thank you for your effort :)

I am not quite sure what you mean by the spam.

The primary antispam feature of the new forum is that first message gets always moderated. So spammers get registred, but are unable to post.

It is also possible to disable posting links until first N messages are approved.

Mirek
