jibe wrote on Fri, 18 April 2014 09:43Hi,

Thanks for the work !

There is a problem with Google links that are not working anymore. They point to [www.ultimatepp.org/forum/](http://www.ultimatepp.org/forum/) when with the new version the right URL is [www.ultimatepp.org/forums/](http://www.ultimatepp.org/forums/)

What do you mean by Google links? (Links from where? Google search?).

Also, [www.ultimatepp.org/forum](http://www.ultimatepp.org/forum) now has JS redirect to the correct link.

Mirek
