
Subject: Crashing when using MenuBar's

Hello,

I recently installed r7466 on Windows 8.1 x64. I used r7099 before, where I never encountered the error. When moving my mouse over opened menu strip items, the following error sometimes pops up.

Is it a bug, or am I doing something wrong? The code for the menus in my program hasn't changed for months.

Regards,

crydev
