Hi Awksed,

Ok that is somewhat clearer now. Perhaps you could try the code below:

```
#include <CtrlLib/CtrlLib.h>

using namespace Upp;

GUI_APP_MAIN
{
    DropList dl;
    TopWindow win;
    win.SetRect(0, 0, 400, 50);
    win.Add(dl.HSizePos(4, 4).TopPos(10, Ctrl::STDSIZE));
    dl.Add(0, AttrText("This is bold").SetFont(Courier(25)).Bold());
    dl.Add(1, AttrText("This is red").SetFont(Arial(25)).Ink(Red()));
    dl.Add(2, AttrText("This is centered").SetFont(Tahoma(25)).Center());
    dl.SetLineCy(30);
    dl <<= 0;
    win.Run();
}
```

Hope this could help you

Good coding
