rbmatt wrote on Thu, 03 August 2006 05:25 Sorry, I thought I had replied to this. A reinstall did the trick- I don't know if it was a path setup wrong b/c I didn't have all the packages installed or what. But it works now. And all is good.
Thanks.

After your problem is solved, please edit your first post and add [SOLVED]
P.S. I keep forgetting those things myself...
