So I have this extremely ugly auto-generated UT code:

```
::ColorRGBA b;
b = ::ColorRGBA();
b = ::ColorRGBA((uint8)(50));
b = ::ColorRGBA(0.5f);
b = ::ColorRGBA(0.1);
b = ::ColorRGBA((uint8)(1), (uint8)(2), (uint8)(3));
b = ::ColorRGBA(0.1f, (float)(0.2), 0.3f);
b = ::ColorRGBA((uint8)(1), (uint8)(2), (uint8)(3), (uint8)(4));
b = ::ColorRGBA(0.1, 0.2, 0.3, 0.4);
b = ::ColorRGBA();
b = ::ColorRGBA((uint8)(50));
b = ::ColorRGBA(0.5f);
b = ::ColorRGBA(0.1);
b = ::ColorRGBA((uint8)(1), (uint8)(2), (uint8)(3));
b = ::ColorRGBA(0.1f, (float)(0.2), 0.3f);
b = ::ColorRGBA((uint8)(1), (uint8)(2), (uint8)(3), (uint8)(4));
b = ::ColorRGBA(0.1, 0.2, 0.3, 0.4);
b._();
b._((uint8)(50));
b._(0.5f);
b._(0.1);
b._((uint8)(1), (uint8)(2), (uint8)(3));
b._(0.1f, (float)(0.2), 0.3f);
b._((uint8)(1), (uint8)(2), (uint8)(3), (uint8)(4));
b._(0.1, 0.2, 0.3, 0.4);
b._();
b._((uint8)(50));
b._(0.5f);
b._(0.1);
b._((uint8)(1), (uint8)(2), (uint8)(3));
b._(0.1f, (float)(0.2), 0.3f);
b._((uint8)(1), (uint8)(2), (uint8)(3), (uint8)(4));
b._(0.1, 0.2, 0.3, 0.4);
```

It is indented with one tab. If I select it all and press Shift-tab, after about two second this happens:

If I press tab again restoring the indentation the navigator returns to normal :).
