
Subject: Cannot compile core console project?

Posted by [anta40](#) on Wed, 24 Sep 2014 08:46:05 GMT

Step by step:

1. Create core console project in MyApps.
2. The "create header", "commandline loop", "multithreaded", and "Use SSE2" checkboxes are unchecked.

And while compiling this simple code:

```
#include <Core/Core.h>
```

```
using namespace Upp;
```

```
CONSOLE_APP_MAIN
```

```
{  
    Cout() << "Hello world from U++...";  
}
```

I got these errors:

Quote:

```

There were errors. (0:00.96)

Looking at things like "Files\Microsoft", "-IC:\Program", etc, it seems that TheIDE cannot parse the path to VS 2013 properly?

I'm using the latest package (upp-win32-7721.exe), anyway.
