Subject: German Date Bug
Posted by h3l1 on Thu, 03 Aug 2006 14:42:37 GMT

Hi there,

I tested the DateTimeCtrl from the forum here and tried to add a german translation. There I got an assert and found the problem was in the Core.t file, the date-format and date-scan were not defined correctly.
Just removed in every german definition the leading words like date-format, date-scan etc.

So now it works.

P.S.: I am testing with 607-dev3
