FieldFrame set in layout designer seems
to be out of sync with the code;

File to be updated:

CtrlLib.usc; somewhere near line 70;

```
case "FieldFrame()": DrawBorder(w, r, Color(65,80,115), Color(65,80,115), Color(65,80,115),  
Color(65,80,115)); break;
```
