Quote: Thanks for patience. And keep that Win installation, it is a good testing environment Smile
Actually, I'm just waiting for the last straw that will make me format my Win8 system. This OS
version should be codenamed "Windows Nightmare" instead. :)

Well, here we go again:

```
* C:\upp\out\examples\MSC9.Debug.Debug_Full.Gui.Mt\UWord.exe 26.01.2015 16:57:39, user:
admin
hr = -2147221404
hr == ((HRESULT)0L) = false
s.tymed = 0
s.tymed == TYMED_HGLOBAL = false
DIB accepted
data = Memory at 0018E754, size 0x0 = 0
```

Tks!
