rainbowsally wrote on Tue, 27 January 2015 08:12AESStreamTest doesn't compile on linux Mint-17.1. The problem is that the libssh library doesn't exist, though it's the default if not using WIN32.

This change to AESStream.upp fixes it for my setup.  
file: AESStream.upp for Linux Mint-17.1  
was: library(!WIN32) ssh;  
is: library(!WIN32) crypto;

libcrypto.a (static) and the DSOs (dynamic) do exist in Linux Mint.

I see no 'ssh' in trunk version.
