Hello,

My propositions (I don't have svn to update uppweb - can I get it to commit this changes?):

Core
plugin/glew

GUI programming & graphics

Improved font handling on POSIX. (Now we are using "Fontconfig")

Multi monitor mode is now supported by X11.

Improved window creating algorithm on X11 (Remove window flickering problem).

Added error like prompt functions.

Several icons was smoothed.

TheIDE

Editor bar improvements.

C++11 keywords is now highlighted.

Add support for comment keywords (TODO, FIXME).

Line duplication feature (CTRL+D).

Icon designer can now smooth icon.

Various bug fixes :) (To all categories)

This is probably the most important things.

Sincerely,
Klugier
