Hi,

Here is a simple test case, which highlighted the problem (attachment)

```
MIValue GetTuple()
```

```
{  
    MIValue r;  
    r.Add("a", "b");  
    return r;  
}
```

```
CONSOLE_APP_MAIN
```

```
{  
  
    MIValue v = GetTuple();  
  
    DUMP(v.Get("a"));  
}
```

the output is:

```
String &MIValue::Get(void)  
error:Not a String value type  
String &MIValue::Get(void)  
String &MIValue::Get(void)  
error:Not a Tuple value type  
v.Get("a") = error:Not a Tuple value type
```
