bug catched:

replacing rval_ by const rval_ in

```
MIValue(MIValue rval_ v);  
MIValue &operator=(MIValue rval_ v);
```

=>

```
MIValue(MIValue const rval_ v);  
MIValue &operator=(MIValue const rval_ v);
```

rsolve the probleme with COMPILER_MSC, but create one with others compilers

the origin of the probleme is in Core/Defs.h:

```
#ifdef COMPILER_MSC  
#define pick_  
#define rval_ &  
#else  
#define pick_ const  
#define rval_ const &  
#endif
```

Why this difference between COMPILER_MSC and others ?
