Subject: Re: Possible Bug with Printing under linux
Posted by Klugier on Fri, 08 May 2015 21:13:16 GMT

Hello one more time ;)

It can be written even smarter. We don't need argument in "Execute0" private method, because we are calling it only once.

I have enclosed zip with necessary files for testing.

P.S.
Woffleys please let me know if everything is OK in my patch.

Sincerely,
Klugier
