Subject: SVN source
Posted by Tom1 on Tue, 01 Sep 2015 07:07:49 GMT

Hi,

I'm working on Linux Mint with a fresh TheIDE now and selected: Setup > Source management.. > Source management settings: SVN repository to get the latest SVN source. However, this appears to be stuck on revision 8845. My guess is that it is pointing at the google code SVN mirror, which is read-only now.

Best regards,

Tom
