The screenshot shows a web-based application window titled "BarCode128_test". The interface includes a dropdown menu for "BarCode Symbology" set to "EAN13", a text input field for "String to Encode" containing "123123123123", and a "BarCode Tuning" section with sliders for "Strip width (px)" at 2, "Image hieght (px)" at 80, and "Quiet zone (px)" at 30. A checkbox for "Rect around Image" is unchecked. A preview window displays a barcode with the number "1231231231232" and colored bars. A "Save as PNG Image" button is located at the bottom left of the application window.
