DeQtff() function before call.

for ex.:

instead

put

Well, that was not a cause here. However, speaking of DeQtff, in most cases you can use "\\1"
escape instead.

Exclamation("\\1" + filename + "\\1");

(In most case -> as long as you can be reasonably sure there is no \\1 in the string... :)
Great ! :)

"\\1" + filename + "\\1" is bullet proof.
