Hello Mirek,
thanks for the fast answer, but I'm sorry, it doesn't help. :?
If I replace "#include <Draw/iml_header.h>" by "<Draw/iml_source.h>" it doesn't help.
If I add "#include <Draw/iml_source.h>" it doesn't help too.
In both cases I get compiler errors.
Let me just provide you my 'configuration information':
theide is installed under Ubuntu 15.4
Have you got another idea or which information do you need too?
