I have found a way how to disable leaks checking in some 'external' cases like this one, it is now in `_trunk_`.

You can also just replace `heapdbg.cpp` from here

<https://github.com/ultimatepp/mirror/blob/1ce7608b2fb7571902917401d4215fb76f03eafd/uppsrc/Core/heapdbg.cpp>

Please try and report (after those other tests :).

Mirek
