Starting from upp-x11-src-9424.tar.gz, I get the following error when compiling TheIDE:

Core/Mt.cpp: In function 'void Upp::ReadMemoryBarrier()':

Core/Mt.cpp:372:6: error: redefinition of 'void Upp::ReadMemoryBarrier()'

void ReadMemoryBarrier()

^

In file included from Core/Core.h:251:0,

from Core/Mt.cpp:1:

Core/Mt.h:152:13: error: 'void Upp::ReadMemoryBarrier()' previously defined here

inline void ReadMemoryBarrier()

^

Core/Mt.cpp: In function 'void Upp::WriteMemoryBarrier()':

Core/Mt.cpp:394:6: error: redefinition of 'void Upp::WriteMemoryBarrier()'

void WriteMemoryBarrier() {

^

In file included from Core/Core.h:251:0,

from Core/Mt.cpp:1:

Core/Mt.h:157:13: error: 'void Upp::WriteMemoryBarrier()' previously defined here

inline void WriteMemoryBarrier()

^

upp-x11-src-9418.tar.gz compiles OK.

Linux Mint 17.3 Cinnamon 32-bit
