Hello all!

If Stacking mode enabled Ctrl+Alt+left key kink the composite tab and goes on. And the Ctrl+Alt+right gets trapped on the composite tab!

Both situations not very pleasant.

It is much easier to define a new hot key specially for integral tab, such as Ctrl+Alt+Shift+right and Ctrl+Alt+Shift+left. Ctrl+Alt+right and Ctrl+Alt+left should work as in the Stacking mode off - turns show all tabs, including all component tabs in the composite tab.

With best regards Navadvipa Chandra das.
