mhhhh... I see that some of my packages give errors. Weird, I'm using many of them in my apps.
I'll check all of them to see what happens.
Can be a clang-related problem ? I don't use clang at all.

p.s.: I don't receive any notificatin from forum.... I noticed it only on these days, and I've probably
missed some questions in past. Can't you fix it ? It's quite annoying to have to rescan the whole
forum to see posts answers
