Here are the first lines of my app:

```
NefbG2() {  
    ver = " v2.1"; // snd Sleep time line 1895  
    // time_t tEnd = 1500e6; // 1 for ~11.6 days;  
    time_t tEnd = 1480e6; // 1 for ~11.6 days;  
    CtrlLayout(*this, "NefbG2 © " + ver);  
    TopMost(true, true).MinimizeBox();  
    NoCenter();  
    // FrameLess(true);  
    AddFrame(menu); // To make a menu bar you must add the frame before setting the callback  
    menu.Set(THISBACK(MainMenu)); // Set the menu callback  
  
    P1 <<= THISBACK(Point1Action);  
    P2 <<= THISBACK(Point2Action);  
  
    fnum = 1;  
    IO = true; ioX = false;  
    slocX = false;  
    cfgfile = "nefbg2.cfg";  
    reset();
```
