Here are the first lines of my app:

```
NefbG2() {
  ver = " v2.1"; // snd Sleep time line 1895
// time_t tEnd = 1500e6; // 1 for ~11.6 days;
  time_t tEnd = 1480e6; // 1 for ~11.6 days;
  CtrlLayout(*this, "NefbG2 © " + ver);
  TopMost(true, true).MinimizeBox();
  NoCenter();
// FrameLess(true);
  AddFrame(menu); // To make a menu bar you must add the frame before setting the callback
  menu.Set(THISBACK(MainMenu)); // Set the menu callback

  P1 <<= THISBACK(Point1Action);
  P2 <<= THISBACK(Point2Action);

  fnum = 1;
  IO = true; ioX = false;
  slocX = false;
  cfgfile = "nefbg2.cfg";
  reset();
```
