<snip>
 The problem was that by the time that example was created, TopWindow did not have TopMost method yet. Now whole thing was replaced with TopMost(config.topmost).

How long will it be before the eye care 'corrected' example will be included in the upp downloads.

"TopWindow did not have TopMost method yet"

"Now whole thing was replaced with TopMost(config.topmost)."

Is this how the upp code will handle topmost?
