Hello Klugier,

theide search for macro files in:

```
UscProcessDir(GetLocalDir());  
UscProcessDir(GetFileFolder(ConfigFile("x")));
```

on Windows ( when theide.exe is in c:\upp),

```
GetLocalDir() : c:\upp\UppLocal  
GetFileFolder(ConfigFile("x")) : c:\upp
```

on Linux (based on the code source)

```
GetLocalDir() : ~/.upp/theide/UppLocal/  
GetFileFolder(ConfigFile("x")) : ~/.upp/theide/
```
