Subject: Minor "bug" in "tutorial / Gui08, Gui09"

On the occasion of the creation of the "tutorial" assembly I'm re-checking the tutorials.

There is a minor "bug" in tutorial "Gui08" and "Gui09":

Line 4 MenuBar menu; is unnecessary - maybe a leftover from copying Gui07.

You might call me a nit-picker but after all it's a tutorial and newbies might desperately ponder the significance of this line of code.
