hongdong wrote on Sun, 20 August 2006 17:05are that "GUI_APP_MAIN" and "THISBACK" macros?

Yes, they are.

If you want to study them do as follows:

1.
Start "TheIde" (Ultimate++) and select any main package - e. g. "reference / AK".

2.
Select "Assist / Navigate.." (Ctrl+J)

3.
Enter "GUI_APP_MAIN" (without the quotation marks!)

4.
Select one of the two displayed symbols by left-double-clicking it and enjoy the code.

5.
Repeat steps 3 and 4 entering "THISBACK".
